

DISPOSAL OF TECHNOLOGICAL UNITS

We provide complete disposal of old halls, machines, production lines and other technological units. We will take care of all disassembly, sorting and ecological processing of generated waste.

DISPOSAL OF TECHNOLOGICAL UNITS

WHAT WE OFFER

Do you need to get rid of old halls, production lines, structures, machines and other technological units?
Contact KOVOSTEEL Recycling, s.r.o.

We carry out the disposal completely:

- we will carry out a detailed survey before starting
- we will manage dismantling of functional and technological units, demolition of cranes, boiler rooms, production lines, etc.
- we have our own team for the implementation of flame cutting works (oxygen cutting)
- we have demolition excavators
- we have quality technical background
- we provide crane work, including the use of platforms
- we will remove all material
- we will purchase metal scrap
- we will take care of the necessary administration
